Greetings from Vermont!

Every time we publish a new edition of our catalog, we add some new and interesting items we think you'd love to own or give as gifts.

This time we've included a few wonderful things made from Vermont soapstone. Friends of ours down in Perkinsville, Vermont, quarry the soapstone themselves. Then they cut and polish the stone and fashion it into griddles and bun warmers and boot driers.

In Putney, Vermont, we ran across some of the most unique, hand-woven picnic baskets we have ever seen. So we're offering them to you. We know you'll find them a delight.

Of course, this whole business of selling by mail things made in Vermont began with our Town and Country Carts.

People still tell us we're old-fashioned because we spend so much time in manufacturing our Carts and put so much hand labor into making them.

Maybe so. But we believe there's still a place for craftsmanship in business. And that's the way we build our Carts — with skill and pride.

Now, as you'll see inside our catalog, we've designed a couple of trailers that you can use with a riding tractor or mower. There's a separate trailer hitch, too. With it you can convert either of our larger Carts into a trailer.

The products you see here we have carefully selected to be good, useful items of high quality. As you might expect, everything we sell is unconditionally guaranteed.

We hope you'll find pleasure browsing through our catalog. It's certainly an easy way to shop. We hope you'll try it.

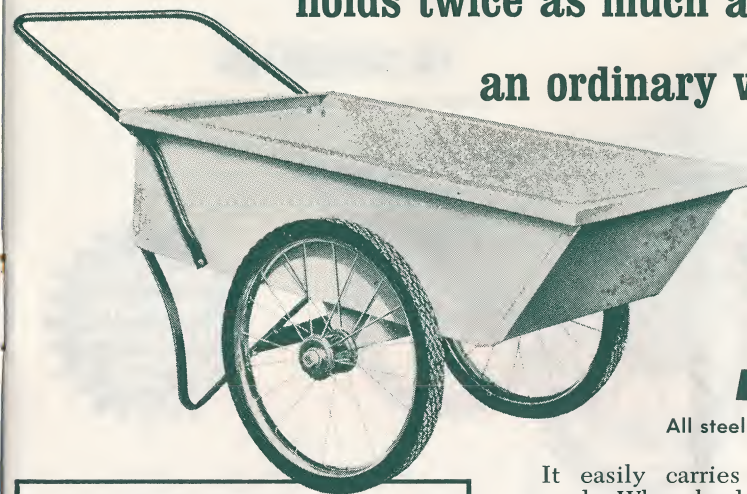

Sincerely yours,

C. L. Gover
